Volume Contents

Volume 32 Number 1 — January 2004

Editorial 1
A. D. Walmsley

What do patients expect from complete dentures? 3
P. W. Smith and J. F. McCord

Effect of heat treatments on machinability of gold alloy with age-hardenability at intraoral temperature 9
I. Watanabe, N. Baba, E. Watanabe, M. Atsuta and T. Okabe

Use of the basic periodontal examination and radiographs in the assessment of periodontal diseases in general dental practice 17
A. Tugnait, V. Clerehugh and P. N. Hirschmann

A clinical and radiographic evaluation of stainless steel crowns for primary molars 27
A. A. Sharaf and N. M. Farsi

Thermal effects of the Er:YAG laser on a simulated dental pulp: a quantitative evaluation of the effects of a water spray 35
D. C. Attrill, R. M. Davies, T. A. King, M. R. Dickinson and A. S. Blinkhorn

Effect of Er:YAG laser and organic matrix on porosity changes in human enamel 41
D. Ying, G. K. Chuah and C.-Y. S. Hsu

Oral health knowledge, attitude and behaviour among Saudi school students in Jeddah city 47
J. M. A. Farsi, M. M. Farghaly and N. Farsi

Adhesive permeability affects coupling of resin cements that utilise self-etching primers to dentine 55
R. M. Carvalho, T. A. Pegoraro, F. R. Tay, L. F. Pegoraro, N. R. F. A. Silva and D. H. Pashley

The influence of alumina abrasion and cement lute on the strength of a porcelain laminate veneering material 67
G. J. P. Fleming, H. S. Jandu, L. Nolan and F. J. Shaini

Microleakage and SEM evaluation of fissure sealants placed by use of self-etching priming agents 75
M. Hannig, A. Gräfe, S. Atalay and B. Bott

The reproducibility of ultrasonic enamel thickness measurements: an in vitro study 83
C. Louwerse, M. Kjaeldgaard and M. C. D. N. J. M. Huysmans

Volume 32 Number 2 — February 2004

Effect of sandblasting, grinding, polishing and glazing on the flexural strength of two pressable all-ceramic dental materials 91
M. Albakry, M. Guazzato and M. V. Swain

The role of organic tissue on the punch shear strength of human dentin 101
B.-S. Lee, T.-T. Hsieh, D. C.-H. Chi, W.-H. Lan and C.-P. Lin

Determinants of in vitro gap formation of resin composites 109
A. Peutzfeldt and E. Asmussen

Determination of fluoride ions released from resin-based dental materials using ion-selective electrode and ion chromatograph 117
T. Itota, T. E. Carrick, S. Rusby, O. T. Al-Naimi, M. Yoshiyama and J. F. McCabe

Role of mechanical environment and implant design on bone tissue differentiation: current knowledge and future contexts 123
M. Çehreli, S. Şahin and K. Akça

Mathematical coupling can undermine the statistical assessment of clinical research: illustration from the treatment of guided tissue regeneration 133
Y.-K. Tu, I. H. Maddick, G. S. Griffiths and M. S. Gilthorpe

Ratio variables in regression analysis can give rise to spurious results: illustration from two studies in periodontology 143
Y.-K. Tu, V. Clerehugh and M. S. Gilthorpe

Effect of different crown contours on periodontal health in dogs. Microbiological results 153
R. J. Kohal, K. Pelz and J. R. Strub

Effects of CO_2 laser on fluoride uptake in enamel 161
S. H. Chin-Ying, G. Xiaoli, P. Jisheng and J. S. Wefel

Letter to the Editor "Efficacy of anti-retraction devices in preventing bacterial contamination of dental unit water lines" [Berlutti F, Testarelli L, Vaia F, De Luca M, Dolci G, Journal of Dentistry 31 (2003) 105-110] 169
S. D. Nero

Reply to letter to editor: Efficacy of anti-retraction devices in preventing bacterial contamination of dental unit water lines 171
F. Berlutti

Volume 32 Number 3 — March 2004

Reviews

Resin bonding to cervical sclerotic dentin: A review 173
F. R. Tay and D. H. Pashley

The effectiveness of manual versus powered toothbrushes for dental health: a systematic review 197
C. Deery, M. Heanue, S. Deacon, P. G. Robinson, A. D. Walmsley, H. Worthington, W. Shaw and A.-M. Glenny

Original articles

The effects of a caries-removing gel (carisolv) on FM3A cell-line in vitro 213
E. Sepet, A. Bilir, O. Akçin and Z. Aytepe

Mapping, profiling and clustering of pressure pain threshold (PPT) in edentulous oral mucosa 219
T. Ogawa, M. Tanaka, T. Ogimoto, N. Okushi, K. Koyano and K. Takeuchi

Genotoxicity and cytotoxicity of dental materials in human lymphocytes as assessed by the single cell microgel electrophoresis (comet) assay 229
N. H. Kleinsasser, B. C. Wallner, U. A. Harréus, T. Kleinjung, M. Folwaczny, R. Hickel, K. Kehe and F.-X. Reichl

In vitro microleakage of adhesive-sealed dentin with lactic acid and saliva exposure: a radio-isotope analysis 235
T. N. Göhring, M. Zehnder, B. Sener and P. R. Schmidlin

'Interleukin-4 gene polymorphism and its relation to periodontal disease in a Brazilian population of African heritage' 241
C. C. Pontes, J. R. Gonzales, A. B. Novaes Jr., M. T. Júnior, M. F. M. Grisi, J. Michel, J. Meyle and S. L. S. de Souza

The effect of light-curing modes on the microleakage of cervical resin composite restorations 247
S. Kubo, H. Yokota, H. Yokota and Y. Hayashi

Volume 32 Number 4 — May 2004

The value of bitewing radiographs in epidemiological caries research: a systematic review of the literature 255
E. Bloemendal, H. C. W. de Vet and L. M. Bouter

Comparison of mandibular premolars and canines with respect to their resistance to vertical root fracture 265
M.-K. Wu, L. W. M. van der Sluis and P. R. Wesselink

Influence of Er:YAG laser on tensile bond strength of a self-etching system and a flowable resin in different dentin depths 269
A. E. de Souza, S. A. M. Corona, R. G. P. Dibb, M. C. Borsatto and J. D. Pécora

Leachability of plasticizer and residual monomer from commercial temporary restorative resins 277
T. Kawahara, Y. Nomura, N. Tanaka, W. Teshima, M. Okazaki and H. Shintani

Resin-modified and conventional glass ionomer restorations in primary teeth: 8-year results 285
V. Qvist, E. Manscher and P. T. Teglers

The effect of hydrogen peroxide concentration on the outcome of tooth whitening: an in vitro study 295
M. Sulieman, M. Addy, E. MacDonald and J. S. Rees

Radiographic technical quality of root canal treatment performed by dental students at the Dental Teaching Center in Jordan 301
K. M. Barrieshi-Nusair, M. A. Al-Omari and A. S. Al-Hiyasat

Effect of Carisolv on the human dental pulp: a histological study 309
G. Bulut, O. Zekioglu, C. Eronat and H. Bulut

Evaluation of a novel dentin bonding system compared to commercial bonding system 315
K. Soeno, S. Suzuki, R. Yokomichi, Y. Taira and M. Atsuta

Influence of curing modes on crosslink density in polymer structures 321
M. S. Soh and A. U. J. Yap

Investigation of new complete denture quality and patients' satisfaction with and use of dentures after two years 327
M. R. Fenlon and M. Sherriff

Short communication
A new automatic device for measuring the spinnbarkeit of saliva: the Neva Meter 335
K. Gohara, T. Ansai, T. Koseki, M. Ishikawa, Y. Kakinoki, K. Shibuya, T. Nishihara and T. Takehara

Corrigendum
Mathematical coupling can undermine the statistical assessment of clinical research: illustration from the treatment of guided tissue regeneration [J Dent (2004) 32, 133-142] 339
Y.-K. Tu, I. H. Maddick, G. S. Griffiths and M. S. Gilthorpe

Volume 32 Number 5 July 2004

Special Issue Section: Amalgam to Tooth Colored Materials—Implications for Clinical Practice and Dental Education

Editorial 341
A.-M. L. Neme

Amalgam to tooth-coloured materials — implications for clinical practice and dental education: governmental restrictions and amalgam-usage survey results 343
F. J. T. Burke

An overview of the current status of national reporting systems for adverse reactions to dental materials 351
R. van Noort, N. R. Gjerdet, A. Schedle, L. Björkman and A. Berglund

Amalgam toxicity—environmental and occupational hazards 359
P. Hörsted-Bindslev

Curricular issues changing from amalgam to tooth-coloured materials 367
N. H. F. Wilson

The amalgam-free dental school 371
F. J. M. Roeters, N. J. M. Opdam and B. A. C. Loomans

Five-year clinical performance of posterior resin composite restorations placed by dental students 379
N. J. M. Opdam, B. A. C. Loomans, F. J. M. Roeters and E. M. Bronkhorst

Regular Papers

Efficacy of three surface disinfectants for dental radiographic films and gloves 385
M. M. Coogan, M. Patel and D. Mladenova

Evaluation of silver methenamine method for nanoleakage 391
M. F. de Goes and M. A. J. R. Montes

Er:YAG laser treatments on dentine surface: micro-Raman spectroscopy and SEM analysis 399
C. Camerlingo, M. Lepore, G. M. Gaeta, R. Riccio, C. Riccio, A. De Rosa and M. De Rosa

Polymerization contraction stress of low-shrinkage composites and its correlation with microleakage in class V restorations 407
F. C. Calheiros, F. T. Sadek, R. R. Braga and P. E. C. Cardoso

In vitro dentine permeability: the relative effect of a dentine bonding agent on crown preparations 413
T. O. Elgalaid, C. C. Youngson, S. McHugh, A. F. Hall, S. L Creanor and R. H. Foye

Volume 32 Number 6 — August 2004

Corrosion resistance of iron-platinum magnets 423
E. Y. L. Yiu, D. T. S. Fang, F. C. S. Chu and T. W. Chow

Importance of mini-dumbbell specimen to access tensile strength of restored dentine: historical background and the future perspective in dentistry 431
N. Nakabayashi

Microtensile bond strength of a dual-cure resin core material to glass and quartz fibre posts 443
J. Aksornmuang, R. M. Foxton, M. Nakajima and J. Tagami

Maximal bite forces in healthy young adults as predicted by surface electromyography 451
V. F. Ferrario, C. Sforza, G. Zanotti and G. M. Tartaglia

Polymerization shrinkage: effects of boundary conditions and filling technique of resin composite restorations 459
A. D. Loguercio, A. Reis, M. Schroeder, I. Balducci, A. Versluis and R. Y. Ballester

The efficacy of a fluoride chewing gum on salivary fluoride concentration and plaque pH in children 471
N. Öztaş, H. Bodur, A. Ölmez, A. Berkkan and S. Cula

Polymerisation characteristics of resin composites polymerised with different curing units 479
G. Danesh, H. Davids, K.-J. Reinhardt, K. Ott and E. Schäfer

Dental erosion, gastro-oesophageal reflux disease and saliva: how are they related? 489
R. Moazzez, D. Bartlett and A. Anggiansah

Effect of remaining demineralised dentine on dental microleakage accessed by a dye penetration: how to inhibit microleakage? 495
M. Piemjai, A. Watanabe, Y. Iwasaki and N. Nakabayashi

Volume 32 Number 7 — September 2004

Pattern of antibiotic prescription in the management of oral diseases among dentists in Kuwait 503
N. O. Salako, V. O. Rotimi, S. M. Adib and S. Al-Mutawa

Effect of periodontal therapy on crevicular fluid interleukin-1β and interleukin-10 levels in chronic periodontitis 511
P. Goutoudi, E. Diza and M. Arvanitidou

Interaction of resin-modified glass-ionomer cements with moist dentine 521
C. K. Y. Yiu, F. R. Tay, N. M. King, D. H. Pashley, R. M. Carvalho and M. R. O. Carrilho

Carbon dioxide laser in dental caries prevention 531
L. K. A. Rodrigues, M. N. dos Santos, D. Pereira, A. V. Assaf and V. Pardi

A comparison of enamel erosion by a new sports drink compared to two proprietary products: a controlled, crossover study in situ 541
S. Hooper, N. X. West, N. Sharif, S. Smith, M. North, J. De'Ath, D. M. Parker, A. Roedig-Penman and M. Addy

In vitro analysis of 'smear layer' on human dentine using ac-impedance spectroscopy 547
A. H. Eldarrat, A. S. High and G. M. Kale

The assessment of methyl mercaptan, an important clinical marker for the diagnosis of oral malodor 555
S. Awano, S. Koshimune, E. Kurihara, K. Gohara, A. Sakai, I. Soh, T. Hamasaki, T. Ansai and T. Takehara

Prevalence of self-assessed tooth discolouration in the United Kingdom 561
M. N. Alkhatib, R. Holt and R. Bedi

Physicochemical interactions at the interfaces between self-etch adhesive systems and dentine 567
Y. Wang and P. Spencer

A safety study in vitro for the effects of an in-office bleaching system on the integrity of enamel and dentine 581
M. Sulieman, M. Addy, E. Macdonald and J. S. Rees

Volume 32 Number 8 — November 2004

Review article

The laboratory assessment of enamel erosion: a review 591
M. E. Barbour and J. S. Rees

Factors affecting the accuracy of elastometric impression materials 603
S. Y. Chen, W. M. Liang and F. N. Chen

Single-bottle adhesives behave as permeable membranes after polymerization. I. In vivo evidence 611
F. R. Tay, R. Frankenberger, I. Krejci, S. Bouillaguet, D. H. Pashley, R. M. Carvalho and C. N. S. Lai

Automated quantification of dental plaque accumulation using digital imaging 623
K. Carter, G. Landini and A. D. Walmsley

Translucent fiber post cementation using a light-curing adhesive/composite system: SEM analysis and pull-out test 629
L. Giachetti, D. S. Russo, F. Bertini and V. Giuliani

Increased fluoride uptake and acid resistance by CO_2 laser-irradiation through topically applied fluoride on human enamel in vitro 635
S. A. Tepper, M. Zehnder, G. F. Pajarola and P. R. Schmidlin

Thermal changes and cure depths associated with a high intensity light activation unit 643
D. A. Stewardson, A. C. C. Shortall, E. Harrington and P. J. Lumley

The use of a 3D laser scanner using superimpositional software to assess the accuracy of impression techniques 653
S. Shah, G. Sundaram, D. Bartlett and M. Sherriff

Finite element contact stress analysis of the RPD abutment tooth and periodontal ligament 659
H. Muraki, N. Wakabayashi, I. Park and T. Ohyama

In vitro growth, acidogenicity and cariogenicity of predominant human root caries flora 667
S. Shen, L. P. Samaranayake and H.-K. Yip

Volume 32 Supplement 1 2004

Advances in tooth whitening: A new, simple and effective solution

Editorial 1
A. D. Walmsley

Tooth colour: a review of the literature 3
A. Joiner

Clinical evaluation of a novel whitening gel, containing 6% hydrogen peroxide and a standard fluoride toothpaste 13
L. Z. Collins, B. Maggio, J. Liebman, M. Blanck, S. Lefort, P. Waterfield, D. Littlewood, M. Naeeni and F. Schäfer

In vitro evaluation of a novel 6% hydrogen peroxide tooth whitening product 19
A. Joiner and G. Thakker

Evaluation of a 6% hydrogen peroxide tooth whitening gel on enamel and dentine microhardness in vitro 27
A. Joiner, G. Thakker and Y. Cooper

A SEM evaluation of a 6% hydrogen peroxide tooth whitening gel on dental materials in vitro 35
B. Schemehorn, C. González-Cabezas and A. Joiner

The measurement of degradation and wear of three glass ionomers following peroxide bleaching 41
L. Mair and A. Joiner

Safety evaluation of a novel whitening gel, containing 6% hydrogen peroxide and a commercially available whitening gel containing 18% carbamide peroxide in an exaggerated use clinical study 47
L. Z. Collins, B. Maggio, A. Gallagher, M. York and F. Schäfer
